DUFRANE NUCLEAR SHIELDING DESIGN: MODULAR/REUSABLE/COST EFFECTIVE

## SHIELDED SOURCE CABINETS

DUFRANE's shielded source cabinet is constructed of 1" thick carbon steel plate which provides a .58" lead shield equivalent. Our design suits a variety of shielded storage needs.

Features include:

- Two fork lift pockets
- Heavy duty hinges (rated for 500 lbs) with ball bearings for ease of operation
- Removable 11 gauge type 304 stainless steel shelves (with positioning tracks in 5" increments)

### Configurations:

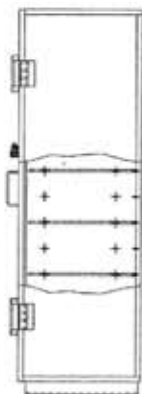

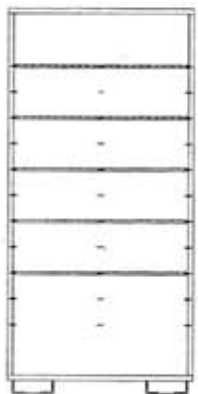

The overall dimensions measure 36" wide, 24" deep and 74.75" high (including the fork lift pockets). Dufrane's shielded source cabinets are available painted for ease of decontamination. Can be used for characterization, monitoring and storage of samples.

Drawing, top left: Front view, 36" wide, 24" deep, and 74.75" high. Fork life pockets at bottom.

Drawing, bottom left: View of interior. Five 11 gauge stainless steel shelves, positioning tracks appear in increments along the sides.

Drawing, bottom right: Side view, two heavy duty hinges (rated for 500 lbs) containing ball bearings for ease of opening and closing doors. Hinges will be welded to the cabinet for added safety and security.

Shown above: A custom designed Shielded Source Cabinet featuring seven drawers and locking doors.
