

With the quality of our work and many accomplishments Dufrane Rail Services has achieved, safety is our number one responsibility in what we do. We are committed to maintaining a safe and healthy workplace environment for all employees, contractors and the communities. The company meets or exceeds all federal, state and local safety regulations.

We ensure training orientations are completed on online programs that include SafeRail and ISNetworld. We obligate future employees to complete the *Railroad Track Inspection & Safety Standards course curriculum FRA Part 243.*

We continuously to train our employees to have a safer day than the day before. We believe that safety is a top priority and foster an attitude of safety consciousness.

“Safety and quality in everything we do.”
